Summary

Dedicated and performance-driven Computer Science student with strong expertise in data structures and algorithms. Passionate competitive programmer with proven problem-solving ability and consistent academic excellence.

Education

B.Sc. in Computer Science and Engineering	Feb. 2020 – Current
Khulna University of Engineering & Technology (KUET)	CGPA: 3.71
Higher Secondary Certificate (HSC)	2019 – 2020
Notre Dame College, Dhaka	GPA: 5.00

Technical Skills

Programming Languages	C (Expert), C++ (Expert), Python, Java
Frameworks	PHP Laravel, ASP.NET, Android(Java), Pygame
Database	MySQL, Firebase, Oracle SQL
Tools	Git, GitHub, Android Studio, VS Code
Specialized Skills	Machine Learning (Basic), Computer Vision (OpenCV)

Achievements

- University Technical Scholarship recipient
- Dean's Award (2 times)
- Codeforces Max Rating: 1081

Major Projects

OMR Evaluation System	Link
Built an Optical Mark Recognition (OMR) system using Python and OpenCV .	
Tactical Clash(AI Strategy Game)	Link
Built turn-based tactical game using Python and Pygame with real-time rendering.	
Online Bookstore (Laravel)	Link
Developed a full-stack e-commerce web application using Laravel and MySQL .	
Social Media App	Link
Built a feature-rich Android social media app using Firebase enabling real-time posts, stories, likes, comments, and user interaction with scalable backend integration.	
Doctor Appointment Booking App	Link
Developed an Android healthcare application using Java and Firebase for real-time doctor discovery, appointment booking, and role-based user management.	

Research Interests

Federated Learning, Machine Learning, Distributed Systems, Privacy-Preserving Artificial Intelligence

Leadership & Activities

General Secretary	Current
KUET Cyber Security Club (KCSC)	
Member	Current
Special Group Interested in Programming Contest (SGIPC), KUET
